

Java 6.0 r7 (J2SDK1.6.7 w/Netbeans 6.1)

- Download JDK 6 update 7 with Netbeans 6.1 from <http://java.sun.com> (follow the links from the Java SE section) or purchase a CD from the Computer Science Helpdesk (50p)
- Run the installer
jdk-6u7-nb-6_1-windows-ml.exe
- “Run” { Security Warning }
- “Next >” { welcome }
- “I accept the terms in the license agreement”
“Next >”
- “Next >” { Install JDK to C:\Program Files\Java\jdk1.6.0_07 }
- “Next >” { Install NetBeans to C:\Program Files\NetBeans 6.1
install JDK for NetBeans to C:\Program Files\Java\jdk1.6.0_07 }
- “Install” { Installation summary }
- De-select “Register the NetBeans IDE and Java SE Development Kit after finishing the installer”
“Finish”

- Edit system environment variable PATH to pre-pend – NOT APPEND -
C:\Program Files\Java\jdk1.6.0_07\bin;
To edit System environment variables:
“Start” → “Settings” → “Control Panel” → “System”
 - Select the “Advanced” tab
 - Select “Environment Variables”
 - Select the system variable “PATH” and then select “Edit”pre-pend “C:\Program Files\Java\jdk1.6.0_07\bin;” to the start of the string
{ Make sure you include the semi-colon and you insert it at the beginning of the string – NOT at the end }
- “OK” (x3)

- Check the file association .jar
- From a Windows Explorer window, select “Tools” → “Folder Options”
- Select the tab “File Types”
- Search the list of types for the extension “JAR”
- Select the tab “File Types”
- Select “Advanced” → “Edit”
- action = Open
application = “C:\Program Files\Java\jre1.6.0_07\bin\javaw.exe” -jar “%1” %*

- Run “Start” → “Programs” → “JAVA Apps” → “NetBeans IDE 6.1”
 - “Never Register”
 - Close NetBeans
- Disable JAVA updates: Run Start→Settings→Control Panel→Java,
Select the “Update” tab,
Deselect “Check for Updates Automatically”,
If prompted, select “Never Check”,
“OK”
- Disable NetBeans Registration Windows:
 - Edit C:\Program Files\NetBeans 6.1\etc\netbeans.conf
 - Append “-J-Dnb.registration.enabled=false” to the end of the “netbeans_default_options” entry.
{ that is “space minus J minus Dnb.registration.enabled=false”, note the capitalisation. }
